

**Responsible Trail Etiquette...** can help keep the park open to horses. Preserve the resources you are here to enjoy.

- ◆ Please stay on designated ONSR blazed trails and unpaved roads which are open to motor vehicles to protect park resources.
- ◆ Do not linger in the water or on gravel bars as trampling stirs up bacteria in the river sediment and moves bacteria into the water column where it may come into contact with humans.
- ◆ Bathing or swimming horses in the rivers and springs is not permitted and may cause harm to delicate aquatic habitats in the springs.
- ◆ Cross rivers and streams only at designated fords. (Refer to map.)
- ◆ Horses are not allowed in developed areas . . . unless otherwise posted.
- ◆ Think Safety! Avoid crossing swift rivers and streams during high water.
